CALGARY CO-OP

Coupon Policy

What kinds of coupons do you accept?

We accept Canadian coupons that are within the stated expiry date and include the dealer information. Coupons will only be accepted for the item specified.

Do you offer store coupons? Where may I find them?

We occasionally offer store coupons in our flyers.

May I use a store coupon and a manufacturer coupon on one item?

No, we have a limit of coupon per item purchased.

Do you exclude any coupons? Ex: above \$5 off, BOGO offers, coupons for free product?

The only coupons we exclude are coupons for products we do not carry. These coupons are not transferable to a different brand.

Do you accept Internet Printable Coupons? May I print them in black and white?

We do accept internet printable coupons as long as they fall within the expiry date, contain a Canadian clearing house address and are for a product that Calgary Co-op sells. We will accept these coupons if they are printed in black and white.

Do you match competitor prices or take competitor coupons?

We do not match prices, however, we will accept competitor's coupons as long as they fall within the expiry date, are an actual coupon that can be brought to our location and are for a product that Calgary Co-op currently carries.

What is your policy on overage: when the value of the coupon exceeds the value of the product?

You will only receive a discount on the value of the product. If the coupon exceeds that value, you will receive the product for free but you will not receive any additional money.

If the coupon exceeds the item's value do you adjust the price of the coupon down? Ex: \$1.00 off coupon on \$0.97 cent product.

If the coupon exceeds the item's value, we adjust the price of the coupon down. As stated above, you will receive the product for free, but you will not receive any additional money in return.

Do you limit the number of coupons I may use per transaction?
There is no limit to the number of coupons you may use in a transaction, although we limit the coupons to one per item purchased.

Do your employees understand "one coupon per purchase=one coupon per item", not "one coupon per transaction"?

Our employees read the terms of each coupon very carefully and abide by the rules which are stated. In most cases, one coupon per purchase will mean one coupon per item, but there may be situations where this is not what is indicated on the coupon. Our employees will always defer to the terms that are written on the coupon.

Does your store ever double or triple coupons?

At this time our store does not double or triple our coupons.

Concerning buy one get one offers. If your store runs a BOGO FREE promo, may I use 2 manufacturer coupons for the 2 products? Or may I only use one?

You can only use the coupon on the product you are paying for.

Are individual stores allowed to impose their own rules or vary from this policy?

No, all stores must adhere to this policy.

FRESHCo

Coupon Policy

What kinds of coupons do you accept?

Printed, original coupons from the vendor, and from our flyer.

Do you offer store coupons? Where may I find them?

We have vendor coupons on store shelves and from time to time offer special store promotions which require a coupon.

May I use a store coupon and a manufacturer coupon on one item?

It depends on the terms of both of the coupons.

Do you exclude any coupons? Ex: above \$5 off, BOGO offers, coupons for free product?

No, but it does depend on the terms of the coupon.

Do you accept Internet Printable Coupons? May I print them in black and white?

We currently do not accept Internet coupons.

Do you match competitor prices or take competitor coupons?

Yes, we do have a cheaper guarantee policy for competitor price matching. We do not accept competitor coupons. Full details on the cheaper guarantee can be found at www.freshco.com but I have supplied the text below for ease.

Cheaper Guaranteed

Our "Cheaper Guaranteed" promise means if a major supermarket competitor within this store's geographic trade area offers a lower price on any item that we carry in our store, simply show us their flyer/ad (current) or receipt (within 7 days of purchase) and we will sell you that item for 1¢ less. Applies to identical items (same brand, item type (in the case of produce, meat and bakery), size and attributes) or comparable items in the case of private label. Does not apply to prescriptions. Excludes 'spend x get x'; and 'free' promotions. We reserve the right to limit quantities. "Our major supermarket competitors", "geographic trade areas" and "comparable items" are determined solely by us and are

based on a number of factors that can change from time to time. We reserve the right to make changes to this program without prior notice.

What is your policy on overage: when the value of the coupon exceeds the value of the product?

Again, it depends on the terms of the coupon but usually there is no cash value.

If the coupon exceeds the item's value do you adjust the price of the coupon down? Ex: \$1.00 off coupon on \$0.97 cent product.

Do you limit the number of coupons I may use per transaction?

No, but it depends on the terms of the coupon.

Do you employees understand "one coupon per purchase=one coupon per item", not "one coupon per transaction"?

Yes – employees are trained to read the coupons and follow the vendor instructions.

Does your store ever double or triple coupons?

At this time, we do not offer these promotions.

Concerning buy one get one offers. If your store runs a BOGO FREE promo, may I use 2 manufacturer coupons for the 2 products? Or may I only use one?

Yes, depending on the terms of the coupon.

Are individual stores allowed to impose their own rules or vary from this policy?

No.

LONDON DRUGS

Coupon Policy

What kinds of coupons do you accept?

Print and Internet.

Do you offer store coupons? Where may I find them?

In store and online.

May I use a store coupon and a manufacturer coupon on one item?

In order for a coupon to be redeemed the retailers must follow the restrictions on each coupon.

Do you exclude any coupons? Ex: above \$5 off, BOGO offers, coupons for free product?

On average, we accept most coupons; our policy has a limit of maximum \$3.00 online coupons without manufacturer notice.

Do you accept Internet Printable Coupons? May I print them in black and white?

Yes, we accept up to \$3.00 internet coupons from outside sources and b&w is acceptable. The coupon must be legible. If smudged ink or incomplete is can not be accepted.

Do you match competitor prices or take competitor coupons?

We match competitor's prices with our long standing policy. Some exceptions apply. We do not match a coupon value unless it is physically presented. Management discretion is used to ensure requests are reasonable and verifiable.

Can I stack coupons?

Retailers must follow the offer and restrictions printed on coupons- if there are no restrictions on the coupon it can be used with other offers or stacked. If a coupon states it cannot be used or combined with any other offer, than that coupon cannot be used with other coupons.

What is your policy on overage: when the value of the coupon exceeds the value of the product?

The coupon value cannot exceed the value of the product.

If the coupon exceeds the item's value do you adjust the price of the coupon down? Ex: \$1.00 off coupon on \$0.97 cent product.

Yes, typically if there is a remaining value we suggest the customer pay the amount remaining and save the coupon for another purchase.

Do you limit the number of coupons I may use per transaction?
No. However management reserves the right to refuse the coupon stacking if a customer presents at our peak service times, or the coupon stacking is for the purpose of obtaining products for resale.

Do your employees understand “one coupon per purchase=one coupon per item”, not “one coupon per transaction”?

London Drugs has a long history with coupon promotions and our staff has experience in accommodating multiple coupons per transaction.

Does your store ever double or triple coupons?
This is not typically the type of promotion we run.

If your store runs a BOGO FREE promo, may I use 2 manufacturer coupons for the 2 products? Or may I only use one?

All coupons used in this transaction will be applied against the 1 purchased item.

Are individual stores allowed to impose their own rules or vary from this policy?

Each store is responsible to deliver a superior customer experience; therefore, certain decisions are left at the stores discretion (see above). When it relates to the delivery of a shopping experience if a purchase wipes out inventory of a product or creates line ups for others – we will suggest a solution to avoid either of these scenarios.

Please remember: A customer cannot use more than 1 type of paper manufacturer coupon on the same item, but if a customer purchases multiple like items and has just 1 type of paper manufacturer coupon for each like item, Safeway will take them all because it is only 1 coupon per item.

For example, Customer purchases 6 cans of Brand Q canned peas. Customer has 6 like paper manufacturer coupons for Brand Q canned peas. (Buy one can of Brand Q canned peas and receive 50 cents off) The coupons will be honored for all 6 cans of Brand Q peas, because 1 type of paper manufacturer coupon can be used for each same item.

We may change this policy at any time. All coupon redemptions are subject to the policy in effect at time of redemption. Policy changes may not be advertised. The current policy will be posted at the customer service area in each store.
